APPENDIX 1

APPENDIX 2: KEY OBJECTIVES OF PUSH

PUSH was formed to deliver regeneration of the core urban areas of the Solent, focused on the cities of Portsmouth and Southampton. The adjoining older urban areas, as well as those on the Isle of Wight are also very much at the heart of this urban renaissance strategy and PUSH believes that the strong functional and physical links between the core urban areas and the semi-rural and rural hinterland must form the basis for the proper planning of the Solent area.

PUSH has pursued an economic regeneration/urban renaissance-driven strategy which links back to the now redundant South East Plan. PUSH believes that a balanced approach, with economic, social and environmental sustainability at its heart, is the responsible and appropriate way to plan for the future of south Hampshire, with an inclusive and integrated spatial strategy delivering sustainable communities into the future. This accords with the vision of the Solent LEP¹, which covers an area coterminous with that of PUSH.

PUSH accepts and embraces managed and sustainable growth as a policy instrument to help lift deprived communities and households out of poverty and deprivation, whilst providing a foundation for the long term security of the quality of life of all the people of the area, which is dependent on economic prosperity, adequate provision of and access to housing, and protection of our natural assets.

The current South Hampshire Strategy published in 2012, provides a robust strategic framework for local plan preparation and other decision-making by PUSH local authorities and their partners up to 2026. The key driver for producing an updated PUSH Spatial Strategy was the willingness of all PUSH Local authorities to continue working collaboratively on cross boundary planning matters, taking into account the Government's National Planning Policy Framework (NPPF) with particular reference to the 'duty to cooperate'. The current spatial strategy forms the basis by which local authorities are able to discharge their duty to co-operate with neighbouring authorities in accordance with the Localism Act, 2011. Preparation of the current spatial strategy commenced in summer 2011 and involved consulting with a wide range of statutory and non-statutory partners across South Hampshire to ensure that all partners are fully engaged and committed to both the vision and aspirations outlined in the plan.

Subsequent to the South Hampshire Strategy (2012) being produced; the policy and economic landscape has shifted, and Local Plans need to look at least 15 years ahead beyond 2026. Therefore the PUSH Joint Committee decided in May 2014 to commence a review of the South Hampshire Strategy which will replace the current Strategy, look to 2036, and accord with the National Planning Policy Framework. This strategy will plan for sustainable development. The aim will be to plan for objectively assessed economic and housing development needs, informed by the LEP's Solent Economic

¹ The Vision of the Solent LEP is to create an environment that will bring about sustainable economic growth and private sector investment in the Solent. It will assist this globally-competitive area reach its full potential, enabling existing businesses to grow, become more profitable and to be greener; enabling the creation of new businesses and attracting new businesses to the region.

Plan; further economic assessments of demand and site availability taking account of long term forecasts, a commercial perspective and sectoral studies (e.g. marine and maritime and logistics) and the PUSH Strategic Housing Market Assessment (SHMA) (2014). The level and distribution of development will also be informed by environmental factors and the need for transport and other infrastructure improvements. In short the strategy will support the LEP's growth objectives whilst protecting the quality of life and ensuring the sub region's infrastructure works effectively, both critical factors for supporting economic growth. It is planned for the Review to conclude by early 2016. Throughout the commission, PUSH has committed to working jointly with the Solent LEP, the business community, statutory bodies and other interested parties.

The key objectives for PUSH are as follows:

- Encouraging conditional, managed growth through the adoption of a *Plan, Monitor and Manage* approach to land release and plan review, with development conditional on timely and adequate infrastructure provision;
- Securing necessary enhancements to infrastructure (covering transport, energy, flood protection, water supply and waste water treatment, social and community facilities, education and healthcare provision and green infrastructure) to support and enable new development and addressing existing infrastructure deficits;
- Providing for circa 74,000 additional dwellings over the period 2006 to 2026, in the South Hampshire area, to meet the needs of the existing population and to accommodate labour supply requirements to sustain sub regional economic performance and prosperity;
- Pursuing a *brownfield and city first* spatial strategy focusing on brownfield and existing sites up to 2011, adding sustainable urban extensions up to 2016 and bringing in larger greenfield Strategic Development Areas after 2016 to deliver sustainable communities with links to the two cities;
- Adopting strong policy protection for strategic gaps, designated nature conservation and protected landscapes, and areas of high quality built environment;
- Achieving the highest environmental standards for new development particularly in terms of resource conservation and reduction of environmental impact, by the application of consistent standards and policy approaches in partner authorities' local development documents covering the PUSH area;
- Delivering enhancements to the green infrastructure and high quality design in the built environment to consolidate and improve the environment and quality of life of the sub region and to promote urban renaissance;
- Promoting locally-led and democratically accountable and cross-party leadership, management and delivery of the vision and spatial strategy for area and securing the participation and engagement of communities, and which recognises the key role of the private sector in delivering growth.

APPENDIX 3: THE SOLENT ECONOMY AND THE STRATEGIC PRIORITIES AND TARGETS OF THE SOLENT LEP

With a population of more than 1.3 million and over 50,000 businesses, the Solent is an internationally-recognised key economic hub anchored around the Isle of Wight, the two cities of Portsmouth and Southampton, the M27 corridor and the Solent waterway. It is globally connected and benefits from significant economic assets including its three international gateways and its world-leading research institutions. The Solent is, without question, a clearly defined functional economic area, with a distinct coastal geography, tremendous economic assets and great potential.

Whilst the Solent boasts a mixed economy, it is our coastal location that sets us apart. The clustering of businesses and educational strengths places the Solent at the heart of the UK's marine and maritime economy. This sector defined broadly, accounts for 20.5% of our GVA and provides 40,000 jobs locally; it supports more than 3,000 businesses. Over the period to 2025, these sectors are projected to grow by 5% in the Solent region. Ensuring that our economic strategy facilitates the growth of these sectors is therefore critically important, as is support for new and emerging sectors.

The Solent LEP is the key interface and lead for economic development in the Solent. The Solent Growth Strategy is best summarised in the [Transforming Solent Growth Strategy](#). This sets out that there is a need to create jobs and growth for the Solent, and to achieve this, the area must make best use of the resources at our disposal, to maximise the impact for our local economy and secure the process of rebalancing the economy.

The Vision for the area is to create an environment that will bring about sustainable economic growth and private sector investment in the Solent. It will assist this globally-competitive area reach its full potential, enabling existing businesses to grow, become more profitable and to be greener; enabling the creation of new businesses and attracting new businesses to the region.

The area has focused very firmly on those activities that will make the greatest impact and create the best conditions for growth. This will mean a clear focus upon:

- Unlocking sites for housing and employment
- Improving our connectivity within the Solent and beyond
- Stimulating and supporting innovation
- Improving the skills and talent of our current and future workforce
- Supporting business growth through access to resources and advice
- Supporting our key strategic sectors

The Growth Strategy for the area targets six strategic priorities:

- Supporting new businesses, **enterprise** and ensuring SME survival and growth.
- Enabling **infrastructure** priorities including land assets, transport and housing, reducing flood risk and improving access to superfast broadband.
- Establishing a single **inward investment** model to encourage companies to open new sites in the region, supported by effective marketing.

- Investing in **skills** to establish a sustainable pattern of growth, ensuring local residents are equipped to take up the jobs that are created and businesses can source local skills and labour to underpin growth.
- Developing **strategic sectors** and clusters (interconnected groups and businesses) of marine, aerospace and defence, advanced manufacturing, engineering, transport and logistics businesses, low carbon and the visitor economy – establishing the area as a business gateway, at both local and international levels and developing local supply chains.
- Building on our substantial knowledge assets to support **innovation** and build innovative capacity in the Solent area to stimulate growth in Solent businesses and in new high growth sectors, particularly linked to our HE excellence.

Meeting the growth aspirations requires the local area to create the conditions that support growth in our business base and creates jobs, whilst improving our productivity and making Solent a destination for inward investment. It also requires the area to work collaboratively and collectively to plan for growth at the strategic level, to ensure that the required new housing and employment space is planned for in a sustainable way to support growth. The PUSH spatial strategy forms a core component of this.

Underpinned by a rigorous economic model² the area has, therefore, set ambitious targets. These targets have been set to stretch Solent partners significantly and they highlight the scale of improvement that is needed if Solent is to realise its ambition. The targets are set out in the box below.

The Solent's Growth Targets

By 2020 we will:

- In addition to current forecasts, create an additional 15,500 new jobs in the area.
- Achieve GVA growth of 3%.
- Increase GVA per job by an additional £6,879 per job.
- Improve productivity (GDP per head) closer to the South East average.
- Increase employment rates to 80% from the current 78% and improve economic activity rates from 80% to 81%.
- Enable the delivery of 24,000 new homes.
- Raise the business birth rate from 3.6% to 4.1% (and create 1000 new businesses).
- Improve the business survival rate³ from 61.4% to 62.5%
- Raise the proportion of the population with Level 4⁴ and above skills to 36% of the working age population from the current 32%
- Support the raising of education attainment rates to above the UK average.
- Increase inward investment into Solent attracting at least 5% of FDI projects entering the UK.

² A bespoke model has been produced by Oxford Economics, see evidence sources

³ 3 year business survival rate, equivalent to an extra 1000 businesses

⁴ An additional 37,000 people

In doing so, we will also seek to maximise value for money from key public sector investments focusing on areas that are economically vulnerable, and linking local people to jobs through effective procurement processes whilst leveraging private sector investment in skills and employment.

FUNCTIONS DELEGATED BY THE PARTIES TO THE PUSH JOINT COMMITTEE

Table 1 sets out the functions delegated to the PUSH Joint Committee.

In exercising delegated functions, the Joint Committee operates according to certain key principles.

- *A commitment to partnership and joint working*

Successful delivery of the South Hampshire Sub-Regional Strategy depends upon effective and wholehearted collaboration between member authorities at both political and officer levels, and genuine partnership working with other sectors and agencies with an interest.

- *Subsidiarity*

Matters that are best done at individual local authority level should continue to be performed at that level. Conversely, matters that would more effectively be dealt with at a sub-regional level, or that may have impacts or require a response on a cross-boundary basis, should be led by PUSH.

- *Geographical limitations*

PUSH would have no jurisdiction or responsibilities outside of its boundaries, unless expressly agreed between PUSH and the relevant local authority or statutory agency.

- *Functional limitations*

PUSH will only do the things that authorities collectively agree that it should do. This needs to be applied flexibility to allow for innovation responsiveness and maximising opportunities.

- *Collective Responsibility*

The member authorities will be collectively responsible and mutually accountable for delivering PUSH's objectives, strategy and activities.

The business plan sets out the range of matters on which the Joint Committee has delegated authority to act and make decisions. These matters are ones that have cross-boundary implications, rather than affecting one authority alone. The Joint Committee has all necessary delegated functions to implement the approved business plan. Individual authorities retain the power to determine local issues affecting their area alone, as these would not be included in the approved business plan.
