Updates on the work of the delivery panels are included in the Co-ordinator's report to each of the Joint Committee meetings.

6. The **Planning & Infrastructure Delivery Panel** budget of £50,000 is to fund the immediate works required on the National Planning Policy Framework and the duty to co-operate, along with Green Infrastructure projects and any issues arising in year such as the nitrates issue on developments in the Solent area.
7. The **Energy and Green Economy Delivery Panel** budget is to fund £30,000 for innovative energy storage projects and £14,000 for the Low Carbon Economy work stream. Energy storage is a new work stream for the panel and the budget is to provide funding for projects that could improve energy storage in the region. There are two current projects, one at looking at using battery powered back-up generators rather than diesel to open up potential income streams and help improve air quality, and another investigating the feasibility of using new technology to combine solar and battery storage in social housing. The Low Carbon Economy work stream funding of £14,000 has been earmarked to support a project by Portsmouth University that will further develop the network of low carbon companies in the area, support new innovation and growth and aid inward investment through the provision of grants.
8. The **Culture, Creative Industries and the Built Environment Delivery Panel** budget includes £30,000 being used as matched funding for a bid to the Arts Council to enable the Creative Industries Support to cover a wider area than just Southampton; £10,000 as funding for Creative Networks South; £4,000 for Panel support and the Solent Design Awards taking place in 2019/20.
9. The **Replacement of the European Collaboration Group** is funding to ensure the partnership is well placed to take advantage of the new UK Shared Prosperity Fund.
10. The **Core Projects & Central Costs** budget reflects commitments relating to staffing costs and other ongoing revenue activities led by the PfSH central team.
11. **Unallocated Balances** are forecast to be £111,000 at year end. It was previously agreed by the Joint Committee that an unallocated budget of around £110,000 would be maintained to enable the partnership to have resources available to react to potential future opportunities as they arise.

A remaining balance of funding of £571,000 was carried forward into 2019/20 and the specific project allocations are set out in table 4 below.
13. During 2019/20 one claim has been received for expenditure incurred on the Hayling Island Brent Goose projects during the year. The Shoreburs Greenway projects is due to be completed by March 2020. The acquisition of land associated with the Hayling Island project is now expected to take place in 2020/21. ## 2020/21 INTERIM BUDGET

14. Proposals for an interim budget are set out below for approval. A final budget for 2020/21 will be presented to the Committee in June 2020. The proposed interim budget is based on the Funding and Subscription arrangements approved by the Joint Committee in June 2019 as part of the PfSH Business Plan. Under the budget arrangement in the plan all existing PfSH members are to contribute to maintain core central costs covering meetings, the programme office, along with legal and financial advice. Project work is then funded by those local authorities participating within any work undertaken.
15. Based on this the interim budget for 2020/21 is proposed to be £75,000 funded by subscriptions. The proposed subscription rates for 2020/21 are based on the indicative 2020/21 contributions approved as part of the Business Pan but updated to reflect the fact that the Isle of Wight Council is no longer a member of the partnership.
16. In addition to this a request for funding have been received from the Culture, Creative Industries and the Built Environment Delivery Panel of £12,500 to fund the work of the Panel in 2020/21. Based on the new budget arrangements this will need to be funded by the participating authorities or the Joint Committee will need to approve the use of unallocated balances.
17. The interim revenue allocations shown in table 5 below includes £250,000 to fund work associated with the National Planning Policy Framework (NPPF), £33,000 of new funding requests for projects in Culture, Creative Industries & Built Environment along with £7,000 for SELP membership and £75,000 for core activities.
