8. GREENPRINT FOR SOUTH HAMPSHIRE

The Joint Committee received a report seeking financial support from PfSH to complement that already received from other organisations and provide the resources to allow for the Greenprint for South Hampshire framework to be developed and shared more widely.

The Joint Committee were reminded of the comments made by the Overview and Scrutiny Committee at their meeting on the 09 March 2021. These comments were circulated to the Joint Committee prior to the meeting for consideration. The Overview and Scrutiny Committee suggested that funds be used to produce an accessible public guide to promote the Greenprint for South Hampshire explaining what the projects might mean for local communities.

The Chairman also suggested that it might be useful for a table to be produced to explain where funds are coming from and what they will be allocated to, in order to provide Members with a better understanding of the income and expenditure for the Greenprint for South Hampshire. It was agreed that this would be compiled and circulated to the Joint Committee after the meeting.

RESOLVED that Joint Committee AGREED to a contribution of £20,000 from PfSH's unallocated resources to support a programme of work to develop the Greenprint for South Hampshire.

The Chairman highlighted to the Committee, the comments received from the 09 March PfSH Overview and Scrutiny Committee meeting, which were circulated to Members prior to the Joint Committee meeting. The Overview and Scrutiny Committee asked that the Joint Committee, request that PfSH investigate moving the nitrate issue forward and seek Government Support. The Chairman assured the Committee that they were doing all they could. Several letters have been sent to the MHCLG on behalf of PfSH and officials from the MHCLG, DEFRA, Environment Agency and Natural England are invited to the PfSH Planning Officer Group meetings.
