## 8. DEPUTATIONS

A deputation was received from Richard Norman, Litchfields for Minute item 9 – Statement of Common Ground.

## 9. PFSH STATEMENT OF COMMON GROUND

*At the agreement of the Chairman this item was brought forward on the agenda to allow it to follow the deputation on this item.*

The Committee received a report from Mike Allgrove, PfSH Consultant, which sets out the proposed updates and revisions to the Statement of Common Ground (SoCG). Mike explained that this report sets out the most significant changes to the SoCG since it was first agreed by the Joint Committee in September 2020.

Members of the Committee discussed the report and the SoCG, set out at appendix 1 and asked questions pertaining to the uncertainty around potential changes to the planning system, which may fundamentally change the approach to local planning processes across the country. Mike reassured Members of the Committee that the uncertainty during this period of government reform has led to the SoCG having to cover various eventualities, but he confirmed that, further revisions and updates will be required to the Spatial Position Statement as these Government reforms are implemented and these revisions will be brought to the Joint Committee for consideration at each stage.

RESOLVED that the Overview and Scrutiny Committee:-

- a) NOTES the contents of this report;
- b) NOTES that the Joint Committee will be asked to APPROVE the content of the Statement of Common Ground, attached at Appendix 1 to the report, that will lead to the production of a PfSH Spatial Position Statement (SPS); and
- c) considered any comments to be passed to the Joint Committee for consideration.

## 10. PFSH MANAGERS REPORT

The Committee received a report from the PFSH Coordinator, Paddy May which provides an opportunity for issues which are significant, but do not justify a full report in their own right to be brought to the Joint Committee.

Councillor Latham asked for a progress update following the Culture, Creative Industries and Built Environment Themed Panel workshops that have been carried out by the Southern Policy Centre. Paddy advised that a full report updating Members on these workshops and other activities will be brought to the Committee in September. Members asked that any current information available, be circulated to the Committee before the next meeting to provide Members with a more timely overview of this work stream.

Councillor Latham queried the figures set at Minute item 11 – Statement of Accounts, which shows a reduction of £13k between the 2022/23 and 2023/24 budget for the Culture, Creative Industries and Built Environment Themed Panel. Paddy advised that the increase in budget was agreed to fund the workshops which is now no longer required for 2023/24.

RESOLVED that the Overview and Scrutiny Committee:-

## 12. SOLENT WADERS AND BRENT GOOSE STRATEGY

The Committee received a report which seeks to update the Joint Committee on the Solent Waders and Brent Goose Strategy. Paddy May delivered the report to the Committee providing an overview of progress since funding was agreed in February 2022.

Paddy emphasised the difference between this Strategy and the work of Bird Aware, explaining that Bird Aware works to mitigate the recreation effects of development near to the coast across the PfSH region whilst the Solent Waders and Brent Goose Strategy aims to conserve and enhance those areas currently used by overwintering wading birds and brent geese and mitigate where relevant land is lost to development. Paddy also highlighted that this piece of work is a great example of how the PfSH authorities work together to develop sites whilst protecting the natural environment.

RESOLVED that the Overview and Scrutiny Committee:-

- a) NOTES the contents of this report;
- b) NOTES that Joint Committee will be asked to NOTE the contents of the report; and
- c) considered any comments to be passed to the Joint Committee for consideration.

## 13. NUTRIENT MITIGATION

The Committee received a report on the Local Nutrient Mitigation Fund. Paddy May delivered the report to the Committee which sets out the proposed use of potential government funding for the purposes of nutrient mitigation.

Members discussed the proposed projects and agreed that a mixture of mitigation and preventative options need to be considered when allocating the funds. The process of how the nitrate credits are purchased and sold was explained and Paddy advised that complex legal agreements will be drawn up to ensure good governance for this process, as the proposed projects are delivered.
